

### ЗМІСТ

|  |     |
|--|-----|
| <i>Atamanyuk V., Barna I., Symak D.</i> The heat-and-mass transfer during filtration drying of feedstock for slag gravel production. Research of change of temperature of thermal agent is on height of layer of material .....                  | 3   |
| <i>Bandura L., Panek R., Franus W.</i> The use of clinoptilolite and synthetic zeolites for removal of petroleum substances .....  | 9   |
| <i>Barabash I., Ksenschkevich L., Mostovoi S., Streltsov K.</i> The research of a phase composition and a microstructure of hydrated cement by mechanoactivated bonding substance with an additive of microsilica.....                           | 17  |
| <i>Bula S. S., Boiko R. O., Lysyuk S.A., Kurtyak Y., Fall Y.</i> Analysis and implementation of new models of fire furnaces .....  | 20  |
| <i>Butsjak A.A., Butsjak V.I.</i> Using of zeolite tuffs as enterosorbents in cows nourishment.....  | 27  |
| <i>Franus M., Bandura L., Franus W.</i> Modification of the lightweight aggregate with the use of spent zeolite sorbents after the sorption of diesel fuel .....   | 32  |
| <i>Gumnycky Y. M., Gyvljud A. M.</i> Adsorption of oxypropionic acid by Sokyrnytske's deposit clinoptilolite .....   | 42  |
| <i>Gyvljud M. M., Demidchuk L. B., Smolyak D. V.</i> Silicium organic coatings for thermal and fire-protection of reinforced concrete .....  | 46  |
| <i>Gyvljud M. M., Stashko N. P., Yemchenko I. V.</i> Protective coatings based filled with polimetylfenilsyloksan to increase corrosion resistance of concrete.....  | 50  |
| <i>Hladyshch D. H., Hladyshch H. M., Dats A. Y.</i> The methods for conducting a survey of a group of buildings of old housing system for determining the integrated technical condition of their actual spatial deformation .....               | 53  |
| <i>Kędziora K., Piasek J., Szerement J., Ambrożewicz-Nita A.</i> Use of modified zeolite in environmental engineering. A review .....  | 61  |
| <i>Kholod P.F., Shmyh R.A.</i> Simulation of the stress-strain state of concrete columns with pre-compress high-strength reinforcement .....   | 67  |
| <i>Klimek B., Barnat – Hunek D., Franus M.</i> Influence of zeolite additive on the properties of plaster used for monumental salted walls.....  | 72  |
| <i>Kramarchuk A. P., Ilynskyy B. M., Volynets M. E., Bobalo T. V.</i> Strength and deformability of normal cross sections of reinforced concrete beams, reinforced in the tension area with additional sheet reinforcement without the bond..... | 79  |
| <i>Krayynskyy P. I., Blicharskyy Ya. Z., Khmil R. Ye.</i> Features of experimental strain determination of compressed-bent elements considering their deflection curve .....   | 89  |
| <i>Krivenko P. V., Runova R. F., Rudenko I. I.</i> Zeolites as structure formation hydrates of alkaline cements.....   | 96  |
| <i>Kropyvnytska T. P., Sanytsky M. A., Kotiv R. M., Gogol M. M.</i> Decorative plasters for finishing works .....  | 101 |
| <i>Labay V. Y., Getsko V. V., Omelchuk O. V.</i> The dependence of exergy losses in elements of air split-conditioners refrigerating machines from adiabatic and electromechanical output-input ratio for compressor.....                        | 105 |
| <i>Margal I., Brajchenko S.</i> Effect of parameter of fibres in dispersed reinforcement of concretes and sulfur concretes.....  | 111 |
| <i>Markiv T., Huniak O., Sobol Kh.</i> Optimization of concrete composition with addition of zeolitic tuff .....   | 116 |
| <i>Marushchak U. D., Rusyn B. G., Mazurak T.A.</i> Rapid hardening modified concretes .....  | 121 |
| <i>Matsuska O. V., Humnytskyy Y. M., Suhorska O. P.</i> Using of zeolite to clean the effluents of meat enterprises .....  | 125 |
| <i>Mazurak A. V., Kovalyk I. V., Mehaylechko V. O., Sadovyi M. V., Ambroziak P.</i> Bearing capacity of strengthened reinforced concrete beams .....   | 129 |
| <i>Mazurak O., Mazurak A., Marushchak U., Pozniak O.</i> Using of silicate materials for sewage sorption treatment from heavy metals .....   | 134 |
| <i>Melnyk I. M.</i> Review the calculation methods of monolithic reinforced concrete flat overlap with the hollow inserts .....  | 139 |

|   |     |
|---|-----|
| <i>Petrushka I. M., Pashuk A. V., Tarasovych O. D.</i> Purification of sewage from salts of heavy metals by natural zeolite.....  | 144 |
| <i>Poznyak O. R., Kirakevych I. I., Stechyshyn M. S.</i> Properties of self-compacting concrete with basalt fiber .....   | 149 |
| <i>Sabadash V.</i> Use of zeolite of the Sokyrnytsa deposit in engineering of environment.....  | 154 |
| <i>Sanytsky M., Kropyvnytska T., Rusyn B., Geviuk I.</i> Multimodal composite Portland cements, modified with ultrafine mineral additives .....   | 158 |
| <i>Shadrikov A. S., Petukhov A. D.</i> Natural zeolite-clinoptilolite characteristics determination and modification .....  | 162 |
| <i>Sobol Kh., Blikharskyy Z., Terlyha V.</i> Optimization of oil-well mix composition with zeolitic tuff additive for borehole cementation .....  | 168 |
| <i>Szerement J., Ambrożewicz-Nita A., Kędziora K., Piasek J.</i> Use of zeolite in agriculture and environmental protection. A short review.....  | 172 |
| <i>Szulej J., Ogrodnik P.</i> Preliminary studies of dynamic parameters in multi-material structures with the addition of zeolite .....   | 177 |
| <i>Tershak B. A., Stavichny J. M., Plytus M. M., Prytula L. J., Kovalchuk M. B.</i> Buffer plugging systems – advanced direction for natural zeolite application .....                          | 188 |
| <i>Vegera P.I., Khmil R.E., Blikharskyy Y.Z.</i> Application of different methods of calculation planning research of reinforced concrete beams strengthened by an inclined cross sections..... | 196 |
| <i>Verba V., Demchyna Kh.</i> Stress-strain behavior, cracking and bearing strength of foam concrete slabs punched through rigid stamps .....   | 202 |
| <i>Vitenko T., Zaretska T.</i> Reasonability of application preliminary cavitation treatment of solutions in adsorption processes.....  | 208 |
| <i>Voznyak O., Shapoval S., Pona O., Vengryn I.</i> Combined solar collector .....  | 212 |
| <i>Yurkevich Y.S., Spodyniuk N.A.</i> Environmental aspects of using solid fuel in urban heating systems .....  | 215 |
| <i>Woszuk A., Kukielka J., Franus W.</i> The effect of zeolite addition at a temperature compaction of asphalt mixes .....  | 221 |
| <i>Zhelyh V. M., Kozak Ch. R., Furdas Yu. V., Spodiniuk N. A., Dzeryn O. I.</i> Energy saving technologies in production complexes agricultural purpose .....                                   | 230 |
