

Politechnika Łódzka

Biblioteka

**Dokumentowanie i
rozpowszechniania informacji o
publikacjach naukowych
pracowników Politechniki Łódzkiej**

SCOPUS to wielodzinowa, bibliograficzno-abstraktowa baza czasopism naukowych i technicznych, tworzona przez Elsevier. Baza przeszukuje artykuły z ponad 19 500 czasopism, ponad 5000 wydawców, ogółem ponad 46 milionów rekordów.

Zawiera również informacje o cytowaniach poszczególnych autorów i prac.

Wyniki wyszukiwania podają linki do pełnych tekstów artykułów, które posiadamy w prenumerowanych w BPŁ bazach (poprzez "LinkSource") oraz pochodzących z czasopism "open source" - ogólnodostępnych (ponad 1200 tytułów).

Oprócz wyników wyszukiwania w bazie (zakładka: SCOPUS) pojawiają się wyniki wyszukiwania w Internecie (zakładka: WEB) - z wykorzystaniem naukowej wyszukiwarki Scirus - tu często pojawiają się artykuły z serwisów e-printowych i czasopism "open access".

Pod zakładką PATENTS znajdują się odpowiadające danemu wyszukiwaniu patenty (w bazie jest ponad 24,8 mln patentów). Wszystkie wyniki wyszukiwania łącznie znajdują się pod zakładką COMBINED RESULTS.

Od 2012 roku Scopus jest udostępniany w ramach ogólnokrajowej licencji akademickiej koordynowanej przez ICM. (Interdyscyplinarne Centrum Modelowania Matematycznego i Komputerowego) Scopus jest udostępniany z platformy SciVerse na serwerze producenta na zasadzie subskrypcji bez prawa archiwizacji

Baza Scopus reklamuje się jako mniej "amerykocentryczna". W bazie WoS ponad 70% indeksowanych czasopism jest wydawana w USA, podczas gdy w Scopus jest to 60%.

Tematyka: biologia, biznes, chemia, ekonomia, elektronika, elektrotechnika, fizyka, inżynieria, inżynieria materiałowa, matematyka, nauki o ziemi, nauki przyrodnicze, nauki społeczne, psychologia, rolnictwo, socjologia, środowisko, zarządzanie, zdrowie.

Zakres czasowy: 1996*- na bieżąco; aktualizowana na bieżąco.

Przeszukamy bazę SCOPUS zwracając szczególną uwagę na trudności w identyfikowaniu autora i przypisanych mu publikacji oraz możliwość pokonania ich dzięki weryfikacji z bibliografią.

- Wprowadzenie danych autora

The screenshot shows the Scopus Author search page in a Windows Internet Explorer browser. The address bar shows the URL: http://www.scopus.com/search/form.url?display=authorLookup&clear=t&origin=searchbasic&txGid=f2mgjck1bLDKG36z4BL_LAX%3a3. The page features the SciVerse and Scopus logos at the top left, and navigation links like 'Hub', 'ScienceDirect', 'Scopus', and 'Applications' at the top. A dark green navigation bar contains 'Search', 'Sources', 'Analytics', 'My alerts', 'My list', 'My settings', 'Live Chat', and 'Help'. The main content area has three tabs: 'Document search', 'Author search' (selected), and 'Affiliation search'. A red callout box with the text 'Wprowadzamy dane' (We are entering data) points to the 'Author' input field. The 'Author' section includes fields for 'Last Name' (containing 'Awrejcewicz'), 'Initials or First Name' (containing 'J'), and 'Affiliation' (containing 'E.g., smith'). There are checkboxes for 'Show exact matches only' and a 'Search' button. Below this is the 'Subject Areas' section with checkboxes for 'Life Sciences', 'Health Sciences', 'Physical Sciences', and 'Social Sciences & Humanities', along with another 'Search' button. A 'Search history' section shows a table with columns 'Search', 'Results', and 'Actions', and a message: 'You have not performed any searches in this session.' A note at the bottom states: 'Note: This Search history will contain the latest 50 searches you perform in this session.' The footer contains links for 'About Scopus', 'Contact and Support', 'About Elsevier', and 'Privacy Policy', along with the Elsevier logo and copyright information: 'Copyright © 2012 Elsevier B.V. All rights reserved. SciVerse® is a registered trademark of Elsevier Properties S.A., used under license. Scopus® is a registered trademark of Elsevier B.V.' The browser's taskbar at the bottom shows the system tray with the date and time '11:02' and several open applications including 'PARAMETRYZACJA', 'Alfabetycznie-bazy...', 'Scopus - Author sea...', and 'Microsoft PowerPoi...'. A system message 'Błąd na stronie.' (Error on page) is visible in the bottom left corner.

•Weryfikacja przedstawionych danych

The screenshot shows a Scopus search results page for the author 'Awrejcewicz, J.'. The search criteria are: Author Last Name: Awrejcewicz; Initials or First Name: J*. The search results show two entries for the author, both affiliated with Politechnika Łódzka. A red callout box highlights the affiliation 'Politechnika Łódzka' with the text 'Analizujemy afiliację autora'.

- Możemy też przeszukać bazę przeglądając załączone do artykułów bibliografie (pole References):

The screenshot displays the Scopus website interface within a Windows Internet Explorer browser window. The address bar shows the URL <http://www.scopus.com/home.url>. The page header includes the SciVerse and Scopus logos, navigation links (Hub, ScienceDirect, Scopus, Applications), and user options (Register, Login, Go to SciVal Suite). The main navigation bar contains links for Search, Sources, Analytics, My alerts, My list, My settings, Live Chat, and Help.

The central section is titled "Document search" and features several tabs: Document search (selected), Author search, Affiliation search, and Advanced search. A search form is present with the following details:

- Search for:** Awrejcewicz J* in References
- Example:** E.g., "heart attack" AND stress
- Buttons:** Add search field, Search

Below the search form, there are filter options:

- Limit to:** Date Range (inclusive) and Document Type
- Date Range:** Published (selected), All years to Present, Added to Scopus in the last 7 days
- Document Type:** All
- Subject Areas:** Life Sciences (> 4,300 titles), Physical Sciences (> 7,200 titles), Health Sciences (> 6,800 titles, 100% Medline coverage), Social Sciences & Humanities (> 5,300 titles)
- Buttons:** Search

A "Search history" section is visible below, showing a table with columns for Search, Results, and Actions. The message states: "You have not performed any searches in this session."

A note at the bottom of the search area reads: "Note: This Search history will contain the latest 50 searches you perform in this session."

The footer contains links for About Scopus, Contact and Support, and About Elsevier. The browser's status bar at the bottom shows the system tray with the time 08:12 and the text "Internet | Tryb chroniony: wyłączony".

08:38

Część z tych publikacji nie jest notowana w Scopusie i wymaga porównania z „Bibliografią PL”

Ogólna liczba cytowań to suma wszystkich cyfr w kolumnie „Citations” - 1325

Możliwość przeszukiwania bazy w dwojaki sposób daje możliwość pełniejszej analizy cytowań publikacji poszczególnych autorów.

Przeszukiwanie „po autorze” dało informację o odnotowanych w bazie Scopus **221** publikacjach prof. J.Awrejcewicza i **751** cytowaniach **130** jego prac. Przeszukiwanie po polu „References” poinformowało nas o **703** publikacjach powołujących się na **296** prac tegoż autora i (po zsumowaniu) **1325** cytowaniach.

W przypadku autorów publikujących swoje najbardziej cenione przez innych naukowców prace w latach wcześniejszych (nie notowanych jeszcze przez serwisy typu SCOPUS) takie przeszukiwania mogą dać dość znacznie różniące się między sobą wyniki.

Poszukując cytowań publikacji autorów o nazwiskach „mniej jednoznacznych” trudności w przeprowadzeniu poprawnej analizy mogą być znaczne i nie zawsze dają całkowicie poprawne wyniki wyszukiwań.

Scopus - Author search results

To determine which author names should be grouped together under a single identifier number, the Scopus Author Identifier uses an algorithm that matches author names based on their affiliation, address, subject area, source title, dates of publication, citations, and co-authors. Documents with insufficient data may not be matched, this can lead to more than one entry in the results list for the same author. By default, only details pages matched to more than one document in Scopus are shown in search results. [About Scopus Author Identifier](#)

Naszej pracy przyświecała idea, Centralnej Komisji do Spraw Stopni i Tytułów, która podaje kryteria oceny kwalifikacji kadry naukowej i artystycznej (w oparciu o Ustawę z dnia 14 marca 2003 r. o stopniach i tytule naukowym oraz stopniach i tytule w zakresie sztuki (Dz. U. Nr 65 poz. 595 ze zm.)

„.... Prace kandydata powinny być znane i cenione w kręgach specjalistów, czego dowodem jest powoływanie się autorów innych prac (w tym autorów zagranicznych) na jego publikacje. Zaleca się korzystanie z międzynarodowego systemu informacji naukowej np. science citation index. ...”
