## MATHEMATICS

---

|  |    |
|--|----|
| <i>Ya. O. Baranetskij, P. I. Kalenyuk, P. L. Sokhan.</i> Non-self-adjoint non-local boundary value problem for the operator of differentiation of even order .....   | 5  |
| <i>O. G. Voznyak, S. D. Ivasyshen, I. P. Medynsky.</i> The fundamental solution of the Cauchy problem for ultraparabolic Kolmogorov type equation with two groups of spatial variables and with degeneration on the initial hyperplane ..... | 13 |
| <i>I. Y. Vrublevskiy.</i> Orthoptic curves of Tshirnhausen's cubic .....   | 22 |
| <i>M. L. Horbachuk, B. I. Ptashnyk, V. S. Il'kiv.</i> A course of life and a creative search of the famous ukrainian mathematician Georgy Voronoi .....  | 26 |
| <i>V. V. Dostoina, O. V. Veselovska, M. A. Sukhorolsky.</i> A system of functions biorthogonal with Chebyshev polynomials of the second kind on closed curves in the complex plane .....   | 34 |
| <i>V. S. Il'kiv, B. B. Pakholok, Ya. M. Pelekh.</i> On the stability of solutions of quasidifferential equations .....   | 41 |
| <i>L. O. Novikov.</i> Vitaliy Yakovych Skorobogatko: some of the milestones of creative life .....   | 46 |
| <i>I. Ya. Oleksiv.</i> Locally connected continua as the consequences of the embeddings of a segment into the space .....  | 51 |
| <i>M. A. Sukhorolsky, V. V. Dostoina, O. V. Veselovska.</i> Biorthogonal systems solutions of the Helmholtz equation in a cylindrical coordinate system .....  | 56 |
| <i>Ye. M. Fedyuk, O. I. Dumanskyi, B. O. Bekas, Yu. S. Protsyk, I. D. Kapran, P. L. Sokhan.</i> Conformal transformations and their application in engineering-technical researches .....  | 69 |

## APPLIED MATHEMATICS AND MECHANICS

---

|  |    |
|--|----|
| <i>V. A. Lazko, R. M. Makhnitskyi, V. L. Lozben, O. Ya. Brodyak, V. M. Huk.</i> Concentration of stresses around a round hole in orthotropic plates with allowance for shear deformation ..... | 74 |
|--|----|

## THEORETICAL AND APPLIED PHYSICS

---

|  |    |
|--|----|
| <i>L. I. Anatyshuk, L. M. Vykhov, R. R. Kobylansky, T. Ya. Kadenyuk.</i> Computer simulation of local temperature effect on human skin in dynamic mode ..... | 78 |
|--|----|
