

CONTENTS

<i>Vovk L., Trofymchuk Y.</i> Comparing of the volume of stormwater runoff from typical residential catchments in largest cities, calculated according to ukrainian normative documents	3
<i>Iliv V., Iliv Y.</i> Increasing the validity of wall construction materials after replacement of hydrogenerated liquids	10
<i>Kushchenko V., Nechitailo A.</i> Analysis of the fatigue strength of resting nodes of multiple-rope friction pulleys of a framed shaft headgear	17
<i>Maksymovych S., Krochak O.</i> On anchoring of the longitudinal tensile reinforcement in reinforced concrete beams without pre-stressing	23
<i>Marushchak U., Sanytsky M., Olevych Y.</i> Influence of elevated temperatures on the performance of nanomodified fiber-reinforced concretes	32
<i>Matsopa I., Muryn A.</i> Modelling of reinforced concrete beams with pretensioned FRP reinforcement	39
<i>Pozniak O., Kondrateva N., Melnyk V., Melnyk T.</i> Research of modified gypsum binders properties	44
<i>Salo V., Salo O.</i> Operating state of span constructions of existing metallic bridges on automotive roads in the western areas of Ukraine	50
<i>Solodkyy S., Dumych I., Turba Yu.</i> Influence of thickness of cement-ground bases on bearing-capacity of concrete road surfaces	55
<i>Ujma A., Kur M.</i> Analysis of thermal properties of floors in heated buildings	59
<i>Shulyar R., Kvasha V.</i> Collapsing of the reinforced concrete roof beam designed for the industrial building. its causes, working conditions and conditions for safety of remaining roof beams	68
<i>Yurkevych Yu., Voznyak O., Savchenko O., Myroniuk Kh.</i> Determination of carbon dioxide concentration in classes	75
