

CONTENTS

Chemistry

- Oleksandr Pokutsa, Andriy Zaborovskiy, Daria Maksym, Roman Makitra, Jacques Muzart and Andrzej Sobkowiak
The influence of the reaction medium on the cleavage of hydrogen peroxide catalyzed with cobalt ions 71
- Volodymyr Mizyuk, Volodymyr Shibanov, Lesya Kobrin, Galyna Marshalok and Georgiy Elagin
Peculiarities of NMR¹³C spectra of benzoic acid and saturated alkylbenzoates.
I. Chemical shift of benzoyl fragment carbon atoms 77
- Oleksandr Ivashchuk and Victor Reutskyy
Research of action mechanism of catalytic solutions in the oxidization process of cyclohexane 85
- Antonieta Middea, Marisa Bezerra de Mello Monte and Elizabete Fernandes Lucas
The influence of the solvent medium on the aggregation of asphaltene macromolecules and determination of their molar mass 91
- Oleh Suberlyak, Oleksandr Hrytsenko and Khrystyna Hishchak
Synthesis of new conducting materials on the basis of polymer hydrogels 99
- Nafdey Renuka and Kelkar Deepali
Synthesis of polyaniline in presence of low magnetic field, its structure and electrical properties 105
- Ragini Raj Singh, Amit Ron, Nick Fishelson, Irena Shur, Rina Socher, Dafna Benayahu and Yosi Shacham-Diamand
Biological cell-based screening for specific membranal and cytoplasmatic markers using dielectric spectroscopy 111
- Yuliya Ioshchenko, Viktor Kablov and Gennady Zaikov
Biodegradation of oil products in polluted soil by using the mixture of the polymer complex [chitosan– lactoserum protein]– active silt 123

Chemical Technology

- Victor Yavorsky
New principles in the polymeric sulfur technology 129
- Iryna Kosogina, Igor Astrelin, Natalya Klimenko and Andriy Kontsevoy
Regularities of low-waste technology of wastewater treatment by coagulation method 133
- Andriy Baldis and Vasyl Shevchuk
Analysis and choice of optimal conditions for the burning of natural gas with heated air in the reactor of carbon black obtaining 139
- Sergey Nikulin and Viacheslav Misin
Technological and ecological aspects of the practical application of quaternary ammonium salts in production of synthetic emulsion rubbers in Russia 147
- Anatoliy Kubrak, Lesya Ladieva, Anatoliy Burban and Roman Dubik
Experimental method of contact membrane distillation process research 153

Current Events

- Witold Brostow and Poonam Tandon
Report from 16th POLYCHAR World Forum on Advanced Materials, World Unity Convention Centre, Lucknow, India, February 17– 21, 2008 I
- G. Zaikov, L. Zimina and L. Madyuskina
Modern achievements of the experimental methods in the field of investigation in the structure and dynamics of polymers and polymer composite materials (XVI Enikolopov's Readings) V
